ABOUT US

As a nationally recognised not-for-profit organisation and charity and as the peak industry body for cyber security professionals, the Australian Information Security Association (AISA) champions the development of a robust information security sector by building the capacity of professionals in Australia and advancing the cyber security and safety of the Australian public as well as businesses and governments in Australia.

Established in 1999, AISA has become the recognised authority on information security in Australia with a membership of over 7,000 individuals and corporate sponsors across the country. AISA caters to all domains of the information security industry with a particular focus on sharing expertise from the field at meetings, focus groups and networking opportunities around

DISCOUNTED CYBER TRAINING

Access to more partnerships, more benefits, delivering great value to our members

ALC offers an industry-leading structured accredited training addressing information security at all levels of the organisation: beginners, career transition, specialists, professionals, management.
