CYBER BOOT CAMP

How sure are you that you're doing everything you should be doing to protect your business from cyber attacks? If you're not 100% confident, do you know what things are still missing?

These are tricky questions for any business owner to answer. In this Cyber Boot Camp program, you get access to an expert cyber risk assessment tailored for your business, as well as a prioritised list of what you should do to secure your business into the future and build ongoing cyber fitness.

This program includes whatever your business needs most, from instructions on how to configure your software securely, to policy and procedure templates to share with your teams. Everything is broken down so that each activity takes less than five minutes because we know small businesses need flexibility. We'll also skip all of the jargon and tech-speak, delivering the advice in plain language that isn't scary or designed to make you worry.

You can't get six weeks of tailored expert advice for just $299 anywhere else in the world, so hit the button below to get started today. Our team looks forward to welcoming you.

Total Stages: 5
