Your Name	**Your Nickname**	**Hair Colour**
Left- or Right-Handedness	**Hobbies & Sports**	**Your Town or City**
The Weather	**Memes**	**GIFs**

Schools Cyber Security Challenges

Your hair colour is safe to share. It might help you be identifiied if someone finds a school photo, but it's generally fine.

OK to share

Schools Cyber Security Challenges

Your nickname doesn't identify you unless it's completely unique. Be careful to make sure it's not linked to your actual identity.

OK to share

Schools Cyber Security Challenges

Your name doesn't identify you unless it's completely unique. If you're not sure, consider using a nickname.

OK to share

Schools Cyber Security Challenges

Your town might help to separate you from people with the same name, but it's unlikely to locate you. Be aware that information can be combined though!
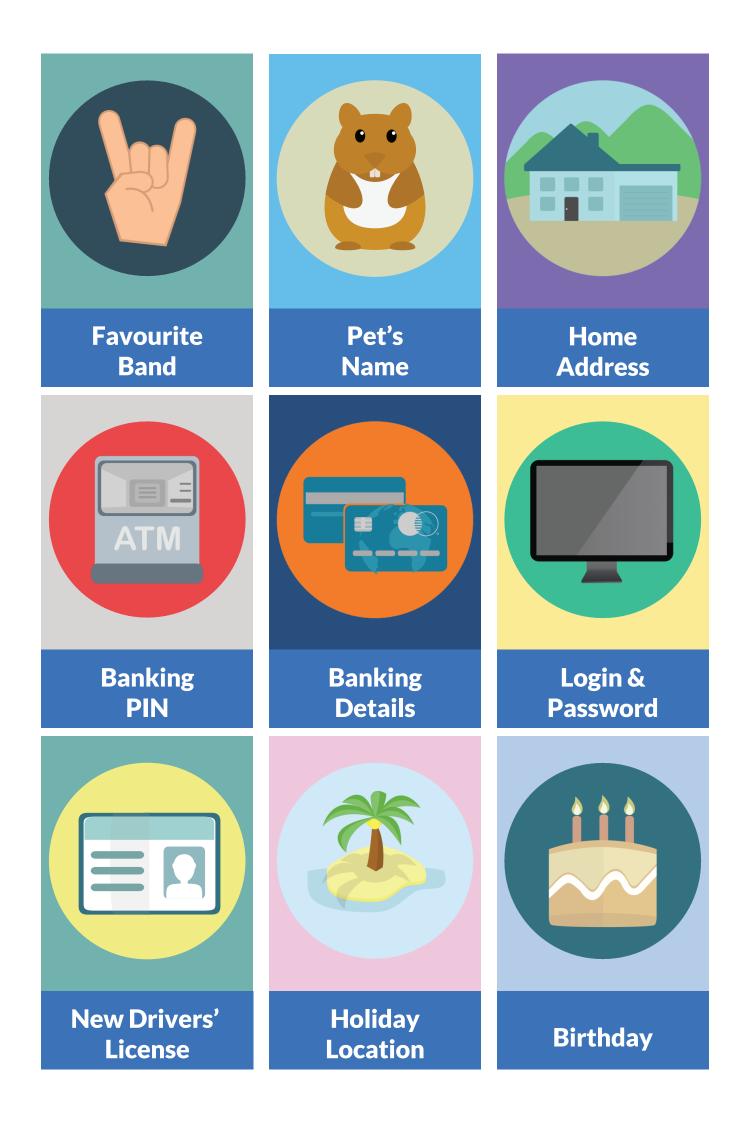

OK to share

Schools Cyber Security Challenges

Your sports and hobbies are great to share - it's a lot of what social media is for! But don't use them as part of any of your passwords, since they're easily found out.

OK to share

Schools Cyber Security Challenges

Your handedness might narrow you down to one person in ten, but it's probably not going to identify you.

OK to share

Schools Cyber Security Challenges

GIFs are fun and usually not unique enough to identify you. Don't add personal details to them or GIF your own videos without thinking it through.

OK to share

Schools Cyber Security Challenges

Memes are fun and usually not unique enough to identify you. Don't add personal details to them.

OK to share

Schools Cyber Security Challenges

Go for it! Share as much weather as you feel like!

Favourite Band	**Pet's Name**	**Home Address**
Banking PIN	**Banking Details**	**Login & Password**
New Drivers' License	**Holiday Location**	**Birthday**

Schools Cyber Security Challenges

Sharing your home address can allow people on the internet to find your physical location. This isn't a great idea so only share it with people you trust.

Don't share

Schools Cyber Security Challenges

Your pet's name is not going to identify you, and won't give away your location. Don't use it as part of a password as it's often easy to find out!

OK to share

Schools Cyber Security Challenges

Share your favourite band! They won't identify you and won't give away your location. Don't use them as part of a password as they are easily found out.

OK to share

Schools Cyber Security Challenges

Don't share your login and password with anyone without a very good reason. Getting a friend to submit homework on your behalf is not a good reason.

Don't share

Schools Cyber Security Challenges

Giving away too much banking information can put your money at risk, and even your identity.

Don't share

Schools Cyber Security Challenges

Don't share your PIN! There's no trick here, this would be a bad idea. If you do share it accidentally, make sure you change it immediately!

Don't share

Schools Cyber Security Challenges

Dates of birth can be used to identify you. Your birthday (without the year) is probably fine. Remember that information can be combined to make you identifiable.

Share with caution

Schools Cyber Security Challenges

Holidays are great and worth boasting about but don't advertise the fact that your house is empty.

Share with caution

Schools Cyber Security Challenges

A Drivers' license is a legal document that can be used as proof of ID. Your identity is at risk if you share a photo of it. Show people the photo in person!

Schools Cyber Security Challenges

Checking in somewhere allows people on the internet to find your physical location. This sort of thing should probably only be shared with those you trust.

Share with caution

Schools Cyber Security Challenges

Your mobile number can be used to send unsolicited messages, spam, or worse. Only share it with people you trust.

Share with caution

Schools Cyber Security Challenges

Geotagged photos can be used to identify you and locate you. It's like "checking in" somewhere, use caution or at least post later, when you are not at the location.

Share with caution

Schools Cyber Security Challenges

Photos can contain lots of clues about where you live, your physical location, and your likely movements. Be careful about what you choose to share.

Share with caution

Schools Cyber Security Challenges

Be careful as sharing the school you attend can help people from the internet find your location. Remember that information can be combined to make you identifiable.

Share with caution

Schools Cyber Security Challenges

An email address may seem harmless to share, but it's often used as your login for websites. It's also really easy for software to find an email address for spam.
